Do you know that Café Oscar is one of the most popular places in Guimarães? Café Oscar is not only a regular café. It is also a social-cultural place, with a long history.

It has been run since 1964. It was an initiative of a music teacher - Óscar Machado. Unfortunately it was hard for him to be a café manager and that's why he passed the business into the hands of his brother, Manuel Ribeiro Castro in 1981.

A customers of Café Oscar have an opportunity to consult for free books, newspapers or magazines while consuming. The main goal though, is to improve the taste and reading habits, educate people in order to maintain social life in Guimarães.

What's more, there is a close relationship between the Oscar and Tuna of Engineering, University of Minho, who regularly performs in this place.
